

KUKLA
SCAFFOLDING

KUKLA SCAFFOLDING MAKES PROJECTS COME TRUE

COMPANY VISION

Our goal is to build a strong name in the European market and eventually reach other continents. Our goal is to build a strong name in the European market and eventually reach other continents.

01.

PROFESSIONALISM IS A MATTER OF COURSE.

Thanks to our many years of experience and professional training, ensure the high professionalism of our workers on projects.

02.

SAFETY IS A MANDATORY.

One of our top priorities is taking care of the safety and comfort of our workers. We also pay attention to strict safety standards when building scaffolding, so as to minimize personnel injuries.

03.

RELIABILITY COMES FIRST.

Our client receives 24/7 project support from us, with the help of which he can solve all unexpected situations.

ABOUT US

OUR STORY

For more than 17 years, we believe that every dream deserves reliable, safe, and comfortable scaffolding.

That is why our customers or partner can choose and adapt services exactly according to their needs without having to deal with additional subcontracts. This is where the added value of KUKLA SCAFFOLDING lies for everyone. Thanks to great flexibility and experience, in our history we have successfully completed many facade, industrial, and event projects throughout Europe. We are still not finished and we plan to support your dreams on other continents as well.

Satisfaction and
good relations with
the client

Increasing the quality of
services provided

Worker satisfaction
and safety

Growth of a family-
oriented company

Successfully and
qualitatively done work

THE REALIZATION OF EVERY DREAM DESERVES RELIABLE SCAFFOLDING.

Náš partner si dokáže prispôsobiť naše služby presne podľa svojich predstáv. A, čo je hlavné nemusí riešiť žiadne sub-dodávky! Vďaka veľkej flexibilite a možnostiam sme dostupní pre akýkoľvek projekt. A práve toto sú pridané hodnoty našej spoločnosti!

WE HELP ON THE WAY TO THE TOP

As a company, we love a challenge, so we're open to yours too. We are proud that our work began right here, in Slovakia. We love Slovakia.

Našu prácu robíme efektívnejšou, rýchlejšou a bezpečnejšou. Poskytovanie tých najlepších služieb našim zákazníkom je to, čo nás poháňa každý deň. Naša jedinečná firemná kultúra je živou pôdou pre náš komerčný úspech. Tento úspech bol možný, pretože mnohí jednotlivci podali vynikajúce výkony. Celá naša firma bola postavená na vzájomnej dôvare a rešpekte ku každému jednotlivcovi. A tento prístup môže pocítiť každý náš klient.

01 SERVICES

Medzi naše hlavné služby patrí predaj prenájom lešenia a jeho samotná montáž.

Potrebuje prenajať lešenie pre váš projekt? Postaráme sa! Potrebujete kúpiť lešenie? Tiež sa postaráme! Alebo potrebujete postaviť lešenie? Samozrejme sa aj o to postaráme! A nie len to, zabezpečíme vám aj prvotriednu podporu od projektových manažérov, technickú podporu, ako aj ľudskú.

FACADE SCAFFOLDING

We carried out the assembly and disassembly of facade scaffolding on projects of various sizes, from more minor to large projects reaching heights of up to 60 m in several European countries.

INDUSTRIAL SCAFFOLDING

We provide assembly and disassembly of more complicated industrial scaffolding in various industries such as paper, and chemical, as well as nuclear power plants, refineries, and various warehouses.

EVENT REALIZATION

We can build a stage, stands, and other structures for you that will enrich the event experience.

SCAFFOLD SAILS

We cover your construction with the help of wind tarps, thanks to which you can protect yourself or your workers from weather conditions and the environment from the spread of construction waste.

PROJECT SUPPORT

Každý projekt začína precíznym plánovaním. Naši projektoví manažéri sa o to pre vás postarajú!

04 **FACADE SCAFFOLDING**

We carry out the assembly and disassembly of facade scaffolding on projects of various sizes, from smaller to oversized projects reaching heights of up to 60 m in many European countries. We provide the rental of various types of scaffolding that enable safe work at heights.

Our work and the systems we use ensure high safety at work and save you money. Thanks to our rich experience, we perform our work quickly and safely.

Our company will take care of everything necessary for you.

04 MUNICH, GERMANY

DISMANTLING OF THE SCAFFOLDING

At the beginning of November, in the center of Munich, a corner of the scaffolding on an antique building from 1897 built-in neo-baroque style. It is still an official building, serving as a ministry. Our 5 colleagues worked on this section and the work lasted 2 weeks.

The work included the dismantling of 1.5 m wide facade type “PERI” scaffolding, with 0.5 m brackets, as well as other accessories such as lifts, weirs, and the like.

SCAFFOLD ASSEMBLY AND DISMANTLE

We are involved in the construction of scaffolding for an office building as well as a sports gymnasium on the outskirts of the city. A total of 3,600 m² of facade scaffolding was erected in 20 days.

Currently, another 3,000 m² of facade scaffolding is being built in cooperation with our 3 workers and our partner.

04 TRNAVA, SLOVAKIA

SCAFFOLDING FOR ISLAND

Scaffolding was gradually built from September 20 to January 2023 in an area of 6000 m² for a new building in Trnava. The material we used for construction was scaffolding from our company.

The installation of scaffolding for the cladding of the building using a ventilated facade and a contact insulation system was solved. It involved the construction of a facade and modular scaffolding, which ensured the possibility of carrying out the work in full. 8 of our workers, who specialize in the facade and modular scaffolding, worked on the project.

Currently, the building is already in the finalization phase and we are gradually dismantling the scaffolding. Our colleagues gradually dismantle the scaffolding with an emphasis on efficiency and work safety.

04 STOKHOLM, SWEDEN

DISMANTLING OF THE SCAFFOLDING

The roof was completely restored and the facade made anew. It is one of the tallest chapels in Stockholm and we provided dismantling and small alterations.

Such an interesting thing is that up in the tower, where the rooster is directly under the bell, there is a secret entrance to the ancient forge, the forge is considered a historical monument, that's why there is minimal movement of tourists and, except for a few people, entry is absolutely prohibited. Due to the bad condition of the sheets on the roof and the wood, they had to restore the roof in order to preserve the forge.

05 INDUSTRIAL SCAFFOLDING

We can realize industrial scaffolding, its assembly and disassembly in various forms, and most importantly create safe work platforms for all kinds of requirements. The variety of materials we work with allows us to create scaffolding for you with a high degree of adaptability of the structure to the conditions of the project.

Various complex technical conditions or unusual geometries of buildings and industrial buildings, chimneys, and other structures are not a problem for us, as we can flexibly and safely build scaffolding for various projects. Thanks to the flexibility of the components we use to build scaffolding, we can quickly assemble work platforms for your needs.

INDUSTRIAL SCAFFOLDING

Industry, Belgium, where our 4 scaffolders are involved in scaffolding work in the steel industry. Where several shutdowns await them, during which parts of industrial facilities will be renovated and modernized. Here they have to deal with the construction of scaffolding in hard-to-reach places, including extendable and suspended scaffolds.

On average, our workers build 1500+ m³ of scaffolding per week. Cup-lock-type scaffolding is used for the construction itself.

INSTALLATION AND DISMANTLING OF INDUSTRIAL SCAFFOLDING

Stockholm, Sweden, long-term cooperation in industry, where a new regeneration boiler is being built. Connections are made throughout the factory so that they are connected to the new boiler. A large amount of m³ of scaffolding is assembled and dismantled every day.

Up to 200-300, scaffolds can be standing in the factory at one time, or they can be under construction. The boiler should be commissioned at the end of 2023.

06 EVENT REALIZATION

We can build or dismantle stages, tribunes, but also other structures that will enrich your audience's event experience. We also deal with the assembly and disassembly of specific event scaffolding (such as: Loudspeaker towers, Decorative structures, DJ stages, VIP terraces, Video walls, Entrance gates, Access stairs, Footbridges, Advertising boards, Ski slopes, etc.) throughout Europe.

We participated in projects for Formula E, Ironman, golf tournaments, summer theaters, concert stages for various festivals, and various other events. In cooperation with our partners, all these types of constructions are possible to implement and most importantly quickly, efficiently, and safely.

FLOW FESTIVAL

Helsinki, Finland proceedings of the Flow festival. In cooperation with our partner, we participated in the construction and dismantling of a large stag in 2022, where several events were held. Quality scaffolding was used for the given project, which is adapted for all needs in the field of events. The ambitious project that stood before us required 11 truckloads of material. The assembly was carried out within 4 days, thanks to efficient logistics. 20 of our scaffolders, who specialize in the construction of stags, were sent to the given project.

After the end of the festival, our workers started dismantling, which took them 2 days.

07 SCAFFOLD SAILS

Do you need to cover your construction and protect yourself or workers from weather conditions, or protect the surroundings from the spread of construction waste? We have a simple help for that. Windscreen foils are used quite often in the construction industry.

Different types of buildings often require scaffolding wind sheets as an outer covering. Windscreen is the most cost-effective and durable material you can use. You can choose windsails from us according to the type and purpose of your project. Whether you need a tent for welders, a temporary workshop, a construction roof, or thermofoil for your project, we are here for you!

PROJECT SUPPORT

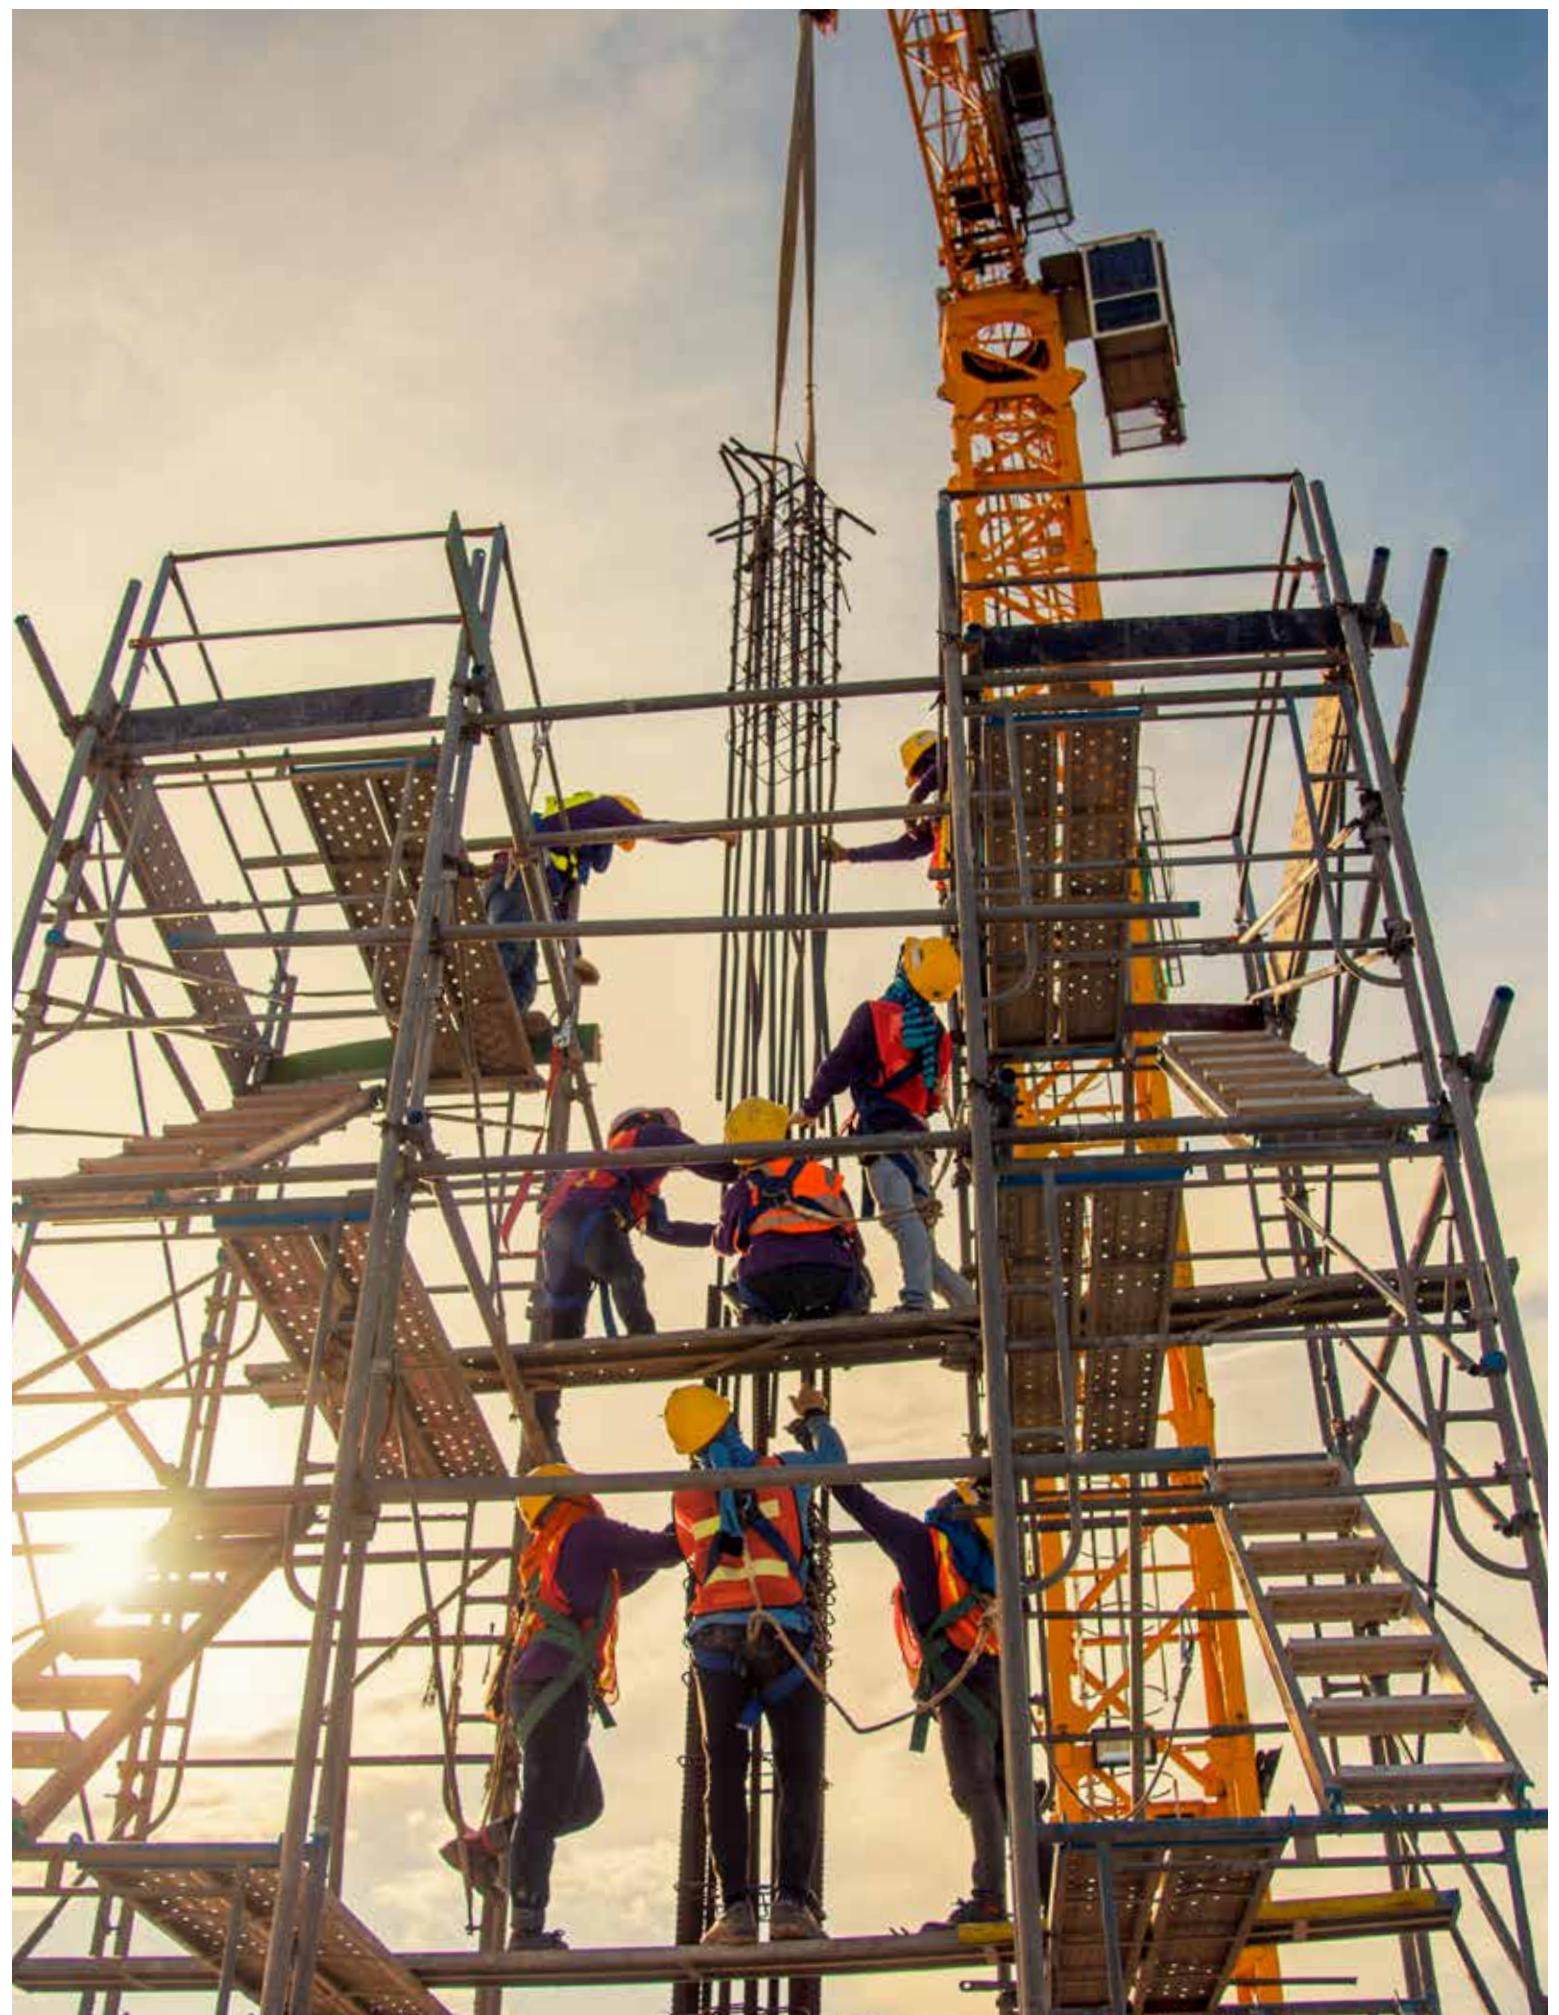

Naše služby zabezpečujú optimalizáciu všetkých procesov súvisiacich s lešenárskou technikou a tým výrazne zvyšujú hospodárnosť realizácie projektu. V súlade s vašimi špecifickými požiadavkami vás podporujeme rozsiahlymi medzinárodnými projektovými skúsenosťami, odbornými znalosťami a vysoko kvalifikovanými odborníkmi, ktorí sú vybavení vhodnými softvérovými riešeniami.

Projektové oddelenie Lešenie SK analyzuje špeciálne požiadavky projektu a naplánuje optimálne vhodné, technicky vyspelé riešenie lešenia. Pomocou softvérové riešenia optimálne podporujú plánovanie s 3D zobrazeniami a doplnkovými informáciami. Poskytovanie materiálov z nášho skladu, školenia personálu a neustála optimalizácia materiálových požiadaviek na stavbe zaistujú najvyššiu efektivitu pri výstavbe.

Máme tiež viac, ako 300 pracovníkov a technických konzultantov pracujúcich na náročných stavebných projektoch po celej Európe. Vďaka svojmu know-how a skúsenostiam sme mali možnosť postarať sa o projekty vo viacerých kútoch Európy.

ŠKOLÍME SI SVOJICH ĽUDÍ

Milujeme prácu, ktorú robíme. Sme rodinne orientovaná spoločnosť a práve preto nerobíme žiadne rozdiely medzi našimi zamestnancami.

To v našej predstave znamená, že pre všetkých máme jeden meter a každý nás zamestnanec má garantované rovnaké výhody z našej strany.

01.

SKÚSENOSTI

S radostou vám odovzdáme naše dlhoročné skúsenosti a vedomosti v oblasti stavebníctva

02.

ODBORNÉ ŠKOLENIA A BOZP ŠKOLENIA

Kedže jednou z našich najhlavnejších priorít je bezpečnosť, tak práve, preto hradíme našim pracovníkom školenia na Európskej úrovni.

03.

STABILITA

S nami sa nemusíte báť o svoj zajtrajšok. Pre našich pracovníkov garantujeme stabilnú prácu a kariérny rast.

04.

SPOKOJNOSŤ

Spokojnosť našich pracovníkov zabezpečujeme našim nadštantartným servisom.

KVALITNE ODVEDENÁ PRÁCA JE PRE NÁS NA PRVOM MIESTE

Záleží nam na najvyššej kvalite a odbornosti. Naše získané certifikáty na Slovensku, v Nemecku či vo Švédsku svedčia o našej kvalifikovanosti, odbornosti a profesionalite.

06 CONTACT

Our scaffolding will help you on your way to the top. We are not just a company.

Thanks to our flexibility and capabilities, we are a company that works for the satisfaction of both parties. We want to make dreams come true. With us it is possible.
